2022 Rating Finalization

① Rating: 5

YEA Home manager: *Janaki Palanisamy (915378)*

Home manager Comments

I would like to really appreciate the work on Manish in CAI4 ESI Team where he has been involved in AOM'S implementation, Synthetic Monitoring, On Call Support. ESI/Cognizant leads are happy about his contributions. Manish is a great team player and he is willing to learn new technology. He provided his support during critical deliveries of the project. He also supports other team members when they need. Also he shows lot of interest to learn and explore new technology concepts and he is flexible about the work. For next year- I would like him to focus on upgrade his Java, Spring Boot Skills & Core AI Skills.

Requested by Manish Singh [908176] # of escalations # of appreciation from customer/onsite PM

Manish has been a key resource on the team. He has individually developed bot changes on Kore for the critical Prior Authorization campaign. His ability to analyze requirement gaps, finding quick code fix for issues, thinking through corner scenarios has helped to lower prod defects. Manish has gained appreciation from client for his performance. 0 Comments

Subject: Feedback- Sowmya and Manish!!

CAUTION: External Email

Hi Manish/Sowmya

Thank you for your extended time for supporting the new team members to groom to make them productive in ESI CAI Teams by sharing your knowledge and support . I saw this with the new 2 GEN C resources whom we converted them to billable.

I see lot of enthusiasm from both of you to learn and share the knowledge. I would like to appreciate your efforts!

Once again, thank you for your support!

Thanks

Ravi
